Welcome to Emergency Physicians' Medical Group (EPMG).

Emergency Physicians' Medical Group (EPMG) is a leading provider of emergency physician staffing and emergency department management services to hospitals and currently manages emergency departments in California, Nevada and Hawaii, providing emergency and urgent care patient services to more than 700,000 patients annually.

EPMG is known for its high-quality, multi-disciplinary quality improvement program support to hospitals as well as its commitment to the education and professional development of its clinicians. It is the largest provider of emergency services in Nevada and the second largest in California.
